

NATIONAL SPORTS AUTHORITY

PRESS STATEMENT – HOOLIGANISM AT LEAGUE CENTERS

The Management of the National Sports Authority strongly condemns acts of hooliganisms that occurred in some league centers over the past few weeks. Such unfortunate acts at our stadia are bad advert for our football, the “passion of the Nation”. The public interest in our game has soared in recent times and as such, these acts of hooliganism have the tendency to derail the gains made to “bring back the love” we all wish to experience. Such acts of lawlessness have been occurring in some league centers, with clubs and the Association who appear to be unable to find a lasting solution to these challenges. In view of this, the Authority is using this medium to caution the Sporting Associations and clubs operating under them to immediately take necessary steps to ensure that these lawlessness stop. The Authority may be forced to intervene with harsher sanctions, should such unacceptable behavior re-occur in subsequent matches.
